Double Block and Bleed with Ultra-Low Emission options Catalog 4190-FP aerospace climate control ... to a secondary instrument valve. A pressure gauge or transmitter will then be installed downstream of the instrument valve ... Parker Monoflange [3]

Double Block and Bleed with Ultra-Low Emission options

Monoflange manifolds are designed to incorporate primary process valves (O.S.&Y.) together with standard isolation and vent needle valves in a one piece body to meet a variety of installation specifications.

Double Block and Bleed Manifolds and Flanged Products

By combining customer-specified valves into a single manifold valve, Parker's monoflange significantly reduces the number of potential leak paths. The monoflanges also have a lower system mass, which reduces loading and vibration stresses, further improving safety and reliability.
